### Some Random Landscape Thoughts

To all our great customers, we'd like to say thanks for supporting us in what we love doing – making outdoor spaces beautiful. The work isn't always easy, but having loyal and satisfied customers sure makes it rewarding.

As you shift into fall mode, don't forget to make sure you're on schedule for any

fall services you need. We can handle your fall chores to free up your time for more important activities, like football and fall festivals. We'll efficiently clean up annual and perennial beds, take care of pruning, do leaf cleanup, and even plant spring bulbs.

Don't forget that fall is a great time for adding both softscape and hardscape to your landscape, so give us a call to talk about your project.

Happy Landscaping!

## Our 3 Favorite Plants for October

---

**Violas** are primarily cool season bloomers. They are perfect for starting and ending the season in colder climates.

**Snapdragons** have tall spikes of brightly colored flowers that bloom profusely in cooler weather.

**Sumac** brilliant fall foliage and fuzzy red berry clusters that linger through winter make sumacs a go-to shrub for fall and winter color.

## The Ultimate Backyard Landscape Design Planning Guide

With some creative planning and the help of JDM Landscape, you can create your dream backyard landscape design. Whether your backyard is small or large, it needs to have both functional and aesthetic appeal. To create that, your backyard needs to have proper height and depth, hard and soft surfaces, as well interesting textures and colors.

### Make a Grand Entrance

Create a lovely pathway with concrete pavers and line the pathway with soft foliage or colorful flowers.

### Set the Stage

Selecting the right trees, shrubs and plants will give your yard good height and depth, soften hard edges on adjacent structures and create a comfortable backyard atmosphere.

### Create Eye-Catching Edges and Borders

Edges and borders will create a neat and well-manicured backyard landscape design with great form, contrast, texture and color.

## Curb Appeal For The Fall

The fall presents a variety of different ways to show off your front yard. Maybe this year, try to put some of these landscaping tips to use:

- Spruce Up Your Lawn
- Plant Fall Flowers
- Highlight Your Front Door
- Clean Up the Exterior
- Clear Out All Gutters
- Add Outdoor Lighting
- Keep Decorations Simple
